

## INDEX TO VOLUME 149

- Abscess, epidural tuberculous, simulating herniated lumbar intervertebral disk, 294
- Acid-base balance, in surgical patients, 342
- Acidosis and lacticacidemia, in extracorporeal circulation, 188
- Agnesis of the plexus, intestinal obstruction in the neonatal period due to, 799
- Anesthesia, subarachnoid block, 617
- Aneurysm, hepatic artery, with excision of heliac axis, 273
- Ankle, unstable fractures of the, treatment for, 217
- Aorta, preductal coarctation of the, 435
- supravalvular stenoses of the, 519
- Aortic valve, repair of operative injury to the, 644
- Aortography (and peripheral), an analysis of results in a university medical school, 321
- Appendectomy, during right inguinal herniorrhaphy, 110
- Arterial occlusion, surgical therapy of acute upper extremity, 388
- Arteries, aorta and iliac, problems in surgery of occlusive disease of, 675
- Arteries, innominate, carotid, subclavian, vertebral, surgical considerations of occlusive disease of, 690
- Arteriography, femoral, skin necrosis complicating, 135
- Arteriosclerosis, peripheral, 539
- Arteriosclerotic narrowing of the celiac and superior mesenteric arteries, the pattern of, 684
- Artery, internal mammary, implants of the, 227
- Arthrokatadysis, report of a patient treated unsuccessfully using cup Arthroplasty and the Eicher femoral head prothesis, 429
- Arytyle, myocardial injury associated with, induced with potassium citrate, 200
- Atrial puncture, transeptal left heart catheterization, 388
- Bifid sternum, repair of, with autogenous cartilage, 448
- Bile duct, common, strictures of the, 781
- complete severance due to blunt trauma, 61
- repair of the, 515
- Biopsy, apex of axilla, in carcinoma of the breast, 149
- Blood amylase level, observations of, in the dog, 77
- Book Reviews:
- To Work in the Vineyard of Surgery, edited by E. D. Churchill, 300
- Eye Surgery by H. B. Stallard, 961
- Diseases of the Esophagus by J. Terracol, 961
- Atlas of Technics in Surgery by J. L. Madden, 961
- Carcinoma of the Lung, edited by J. R. Bignall, 962
- Treatment of Breast Tumors by Robert S. Pollack, 962
- Brachial plexus nerve block, neurological sequelae of, 53
- Breast cancer, the effect on survival of certain variables in, 807
- Breast, carcinoma of, biopsy of the apex of the axilla in, 149
- Bronchi, main-stem, injuries to, 949
- Burn, following accidental exposure to high energy radiation, 286
- Burns, experimental, use of carbon arc and burning magnesium as thermal sources for, 68
- treatment of, studies in metabolism of trauma, 252
- Calcification, vicarious, involving the gallbladder, 267
- Cancer cells, in the blood, 457
- Cancer, experiences with isolation-perfusion technics in the treatment of, 627
- fistula, 815
- of the thyroid, total thyroidectomy for, 858
- Canine esophagus, perfusion of the, with secretions of the upper gastro-intestinal tract, 556
- Cannulation, lymphatic, studies of ulceration and edema of the lower extremity by, 884
- Carbon arc, use of, as thermal source for experimental burns, 68
- Carcinoma, bronchogenic, primary malignant tumors of the lung other than bronchogenic, 925
- esophageal, palliative treatment of, 207
- of the breast, biopsy of the apex of axilla in, 149
- of the floor of the mouth, 172
- of the larger bile ducts, 762
- Carcinoid, malignant, massive liver resection for control of severe vasomotor reactions secondary to, 641
- Carotid artery, surgical treatment of occlusive disease of, 711
- Cartilage, autogenous, repair of bifid sternum with, 448
- Celiac axis, excision of, 273
- Certain variables in breast cancer, the effect on survival of, 807
- Cervical esophagus, immediate reconstruction of the, by a revascularized isolated jejunal segment, 162
- Chloromycetin, efficacy of, in treatment of strangulation obstruction, 471
- Chlorpromazine, effect of, on survival time and mesenteric blood flow in experimental shock, 43
- Cholecystostomy, planned, 746
- Circulation, extracorporeal, lacticacidemia and acidosis in, 188
- study of, in normal tendons and healing grafts, 415
- collateral, between a spleen transposed into the thoracic cavity and the vena cava superior, 443
- Coagulation, disseminated intravascular, a cause of shock, 462
- Colon, necrotic, chronic intussusception with spontaneous separation of, 600
- Common bile duct, significance of its diameter, 249
- Contact splint survey, 21
- Coronary air embolism, surface tension reducing substances in management of, 374
- Crush syndrome, in dogs, studies on myoglobin and hemoglobin, 235
- Cup arthroplasty, 429
- Cyst, pancreatic, in the newborn, 576
- Diseases, hemophilia and hemophiloid, surgical management in, 721
- Disk, herniated lumbar intervertebral, epidural tuberculous, abscess simulating, 294
- Diverticula, congenital, of the pericardium, 117
- Duodenal ulcer, objective evaluation of vagotomy-antrectomy for, 875
- Dysphagia, caused by hypertrophic changes in the cervical spine, 297
- Eicher femoral head prothesis, 429
- Embolization, comparison of air, oxygen and carbon dioxide, 95
- Enteritis, acute perforated tuberculous, surgical treatment, 143
- regional, 140
- regional, and pneumatosis cystoides intestinalis, 593
- Esophageal ring, lower, surgical experience with, 491
- Esophagectomy, perforated peptic ulcer occurring as post-operative complications of, 586
- Extracorporeal circulation relating to venous cannulation and drainage, problems in, 652
- Femoral hernia, strangulated, 9
- Fistula, coronary arteriovenous, 572
- arteriovenous, of the splenic vessels, 590
- congenital brachio-esophageal in an adult, 582
- Fluothane, clinical experiences with, 100
- Fractures, unstable, treatment of, 217
- Gallbladder, vicarious calcification involving the, 267
- Gastrectomy, partial, iron metabolism in patients after, 534
- Gastric resection, experience with, by the Péan-Rydygier-Billroth I method, 475
- Gland tumors, parotid, a clinical approach to, 852
- Heart catheterization, transeptal left, a new method of atrial puncture, 388
- Hemoglobin, studies on, in experimental crush syndrome in dogs, 235
- Hemophilia and the hemophiloid diseases, surgical management in, 721
- Hepatic lobectomy, technic of, 648
- Hernia, strangulated femoral, review of 170 cases, 9
- Hiatus hernia, esophageal, transabdominal repair of, 498
- Hyperparathyroidism, surgical treatment of, 305
- Hyperthyroidism and pregnancy, 867
- Impact of the American Board of Surgery upon education in the United States, presidential address, 609
- Implants, internal mammary artery, into normal dog ventricles, 227
- Inguinal herniorrhaphy, right, appendectomy during, 110
- Intestine, small, experimentally produced simple and strangulated obstructions of the, 77
- Intussusception, chronic, with spontaneous separation of necrotic colon, 600
- Iron metabolism, in patients following partial gastrectomy, 534
- Isolation-perfusion technics in the treatment of cancer, experiences with, 627
- Jejunal Roux-en-Y segments, bacteriologic studies and pressure recordings in, 508
- Jejunal segment, revascularized isolate, immediate reconstruction of the cervical esophagus by, 162
- Kerckring's Valves, the anatomy of, 486
- Lacticacidemia and acidosis, in extracorporeal circulation, 188
- Larger bile ducts exclusive of the papilla of Vater, carcinoma of the, 762
- Leg, treatment of venous ulcers of, 914
- Leiomyomatosis, intravenous, of the uterus and pelvis, 126

- Lesions, osseous, use of polyurethane polymer for, 107
- Lip, lower, following excision for carcinoma, a method of reconstructing the, 903
- Liver cyst, echinococcus, report of a case infected with *Salmonella Saint Paul*, 565
- Liver disease, human, the use of radioactive rose bengal in the study of, 353
- Lobectomy, hepatic, technic of, 648
- Lumbar sympathectomy, 539
- Lymphosarcoma, of the small intestine in infancy and childhood, 87
- Magnesium, burning: thermal source for experimental burns, 68
- Main-stem bronchi: complete separation of left with successful anastomosis and instability of right due to fracture of multiple cartilages, injuries to, 949
- Mastectomy, radical incisions, application of Z-plasty principle to closure of, 440
- Mesenteric arteries, celiac and superior, the pattern of arteriosclerotic narrowing of the, 684
- Mouth, carcinoma of the, 172
- Myocardial injury, associated with asystole induced with potassium citrate, 200
- Myoglobin, studies on, in experimental crush syndrome in dogs, 235
- Neomycin, respiratory arrest following intraperitoneal use of, 546
- Neonatal period, intestinal obstruction due to agenesis of the plexus in the, 799
- Nerve block, brachial plexus, neurological sequelae of, 53
- Nutrition by the intravenous route, newer concepts of, 841
- Obstruction, strangulation, efficacy of chloromycetin in treatment of, 471
- Occlusive disease of aorta and iliac arteries, problems in surgery of, 675
- of innominate, carotid, subclavian, vertebral arteries, surgical consideration of, 690
- of the carotid artery, surgical treatment of, 711
- Organism, malnourished, survival of the: following surgical trauma in rats maintained solely on carbohydrate feeding, 243
- Pancreatic cyst in the newborn, 576
- Pancreatitis, postgastrectomy, studies on so-called, 737
- Papilla of Vater, carcinoma of the larger bile ducts exclusive of the, 762
- Parotid gland tumors, 852
- Patent ductus, preductal coarctation of the, 435
- Pelvis, intravenous leiomyomatosis of the, 126
- Peptic ulcer, perforated, occurring as postoperative complications of esophagectomy with jejunal interposition, 586
- Perfusion, canine esophagus, with secretions of the upper gastro-intestinal tract, 556
- Pericardium, congenital diverticula of the, 117
- Pheochromocytoma, 925
- Plethysmography, digital, value of, in evaluating patients with peripheral arteriosclerosis for lumbar sympathectomy, 539
- Pneumatosis cystoides intestinalis, 593
- Polyurethane polymer, use in osseous lesions, 107
- Postgastrectomy pancreatitis, 737
- Pregnancy, hyperthyroidism and, 867
- Proctocolectomy and matured ileostomy, 822
- Prolapse, ileocecal, 833
- Radiation, skin graft tolerance of, 65
- Radiation, thermal, studies of the protective qualities of clothing, 278
- high energy, burn following accidental exposure to, 286
- Reconstructing the lower lip following excision for carcinoma, a method of, 993
- Regional Enteritis with free perforation, 140
- Respiratory arrest following intraperitoneal use of neomycin, 546
- Rose bengal (I<sup>131</sup> labeled), use of radioactive, in the study of human liver disease, 353
- Salmonella Saint Paul*, first case report of an echinococcus liver cyst infected with, 565
- Shock, experimental, effect of chlorpromazine on survival time and mesenteric blood flow in, 43
- Skin grafts, tolerance to radiation: a study of postmastectomy irradiated grafts, 65
- Skin necrosis, complicating femoral arteriography, 135
- Sphincter of oddi, stenosis of the, 773
- Spinal fluid, shunting, in hydrocephalic dogs, 508
- Spleen, injury to the, 402
- transposed into the thoracic cavity and the vena cava superior, collateral circulation between, 443
- Splenic tissue, autotransplantation of by splenosis, 402
- Splenic vessels, arteriovenous fistula of the, 590
- Splenosis, autotransplantation of splenic tissue following injury to the spleen, 402
- Staphylococcus aureus, the environmental distribution of in an operating suite, 30
- Stenosis, of the sphincter of oddi, 773
- valvular aortic, the experimental production of, 368
- Stomach, spontaneous perforation of the, in the newborn, 525
- Stones, operations upon the common bile duct for, 793
- Tendons, normal, and healing grafts, a study of circulation in, 415
- Thrombosis, "standard" venous, studies in the production of, 381
- Thyroidectomy, total, for cancer of the thyroid, significance of intraglandular dissemination, 858
- Tongue, cancer of the, 898
- Trachea, a technic for subtotal excision of the, 1
- Tracheostomy, sternal, and a technic for subtotal excision of the trachea, 1
- Trauma, blunt, complete severance of the common bile duct due to, 61
- surgical, in rats maintained solely on carbohydrate feeding, 243
- studies in metabolism of, 252
- Tuberculous enteritis, acute perforated, surgical treatment, 143
- Ulcer, gastrojejunal, vagus section in the treatment of, 481
- Ulceration and edema of the lower extremity by lymphatic cannulation, studies of, 884
- Ulcerative colitis patient with special reference to one stage proctocolectomy and matured ileostomy, rehabilitation of the, 822
- Ulcers, venous, of the leg, treatment of, 914
- Uterus, intravenous leiomyomatosis of the, 126
- Vagotomy-antrectomy for duodenal ulcer, objective evaluation of, 875
- Vagus section, treatment of gastrojejunal ulcer, 481
- Valvular aortic stenosis, experimental production of, 368
- Vasomotor reactions, severe, secondary to malignant carcinoid, massive liver resection for control of, 641
- Vena cava superior, collateral circulation between a spleen transposed into the thoracic cavity and the, 443
- Venous cannulation and drainage, problems in extracorporeal circulation relating to, 652
- Venous thrombosis, "standard," studies in the production of, 381
- Vital veins, replacement of, 549
- Z-plasty principle, application of, to closure of radical mastectomy incisions, 440
